**Re: In the Matter of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

We switched from dsl to fiber optics about 2 years ago and the speed provided is now necessary to watch good quality tv and telephone...

We want more competition to avoid the giants monopoly of the broadband services who will increase their monthly fee for worse service and support.

We need broadband as it also open doors for more competition for the telephone and the tv providers as well.

To conclude: we little residential broadband consumer, we must get affordable internet and phone service and the only way to get there is a fair competitive broadband service provider market...
